

Part 1. Terminology. For each of the following terms, provide a **definition** in your own words and an **example or a sentence using the term**.

Example: inflection – a bound morpheme that has a grammatical function, such as marking past tense or plural. Inflections are small units of meaning that attach to the ends of words to indicate tense and number. For example, in Present-Day English, *-ed* attaches to verbs to mark past tense, and *-s* is added to nouns to mark plurals.

1. lexicon

2. morpheme

3. fricative

4. manner of articulation

5. affricate

Part 2. IPA Transcription. Transcribe the following words into IPA.

6. linguistics

7. examine

8. highlight

9. schedule

10. dictionary

Part 3. Articulatory descriptions. Provide full articulatory descriptions for the following sounds.

11. [u]

12. [r]

13. [m]

14. [θ]

15. [s]

16. [æ]

17. [ɪ]

18. [t]

19. [p]

20. [ž]
